

**Thanks for your Support ♥!**

This is a guide on how to install this package!

Please **follow** the **steps** and watch this instruction video:

[https://www.youtube.com/watch?v=Bz\\_0y2zU-Fc](https://www.youtube.com/watch?v=Bz_0y2zU-Fc)

It was originally made for the C4 Pack but should still be up to date.

NOT QUEST COMPATIBLE! Sorry :/

Disclaimer: I'm not responsible in any shape or form if you lose/corrupt your unity project.

MAKE SURE TO ALWAYS **BACKUP** YOUR **UNITY PROJECT** BEFORE DOING ANYTHING.

Furthermore, you should also make sure to **duplicate** your **Avatar in your scene** (so you create a Backup of them) and work on them instead!

If importing a new Radar Tablet version, please delete the 'RadarTablet' folder in "@Kyrowo/Props" first!

## Get all Necessary Addons (FREE)

NOTE: Beware, some Addons require you to delete all its related folders inside your unity project to properly update. Make sure to follow any instruction on how to properly update an addon on their GitHub or respective site **IF** you have already installed the addon beforehand.

**No guarantee if you got a package imported already, but you can import my provided Packages! I collected them, so you can import them more easily. But if you want/need a newer version:**

already provided with the downloaded content:

- MochiesCode (Shader) - <https://github.com/MochiesCode/Mochies-Unity-Shaders/releases/tag/v1.36.1>  
(download Mochies.Unity.Shaders.v1.36.1.Free.unitypackage (or newer))
- Poiyomi (Shader) - <https://github.com/poiyomi/PoiyomiToonShader/releases/tag/V8.1.163>  
(download poi.Toon.7.3.50.To.8.1.163.unitypackage (or newer))

## **Please download latest!:**

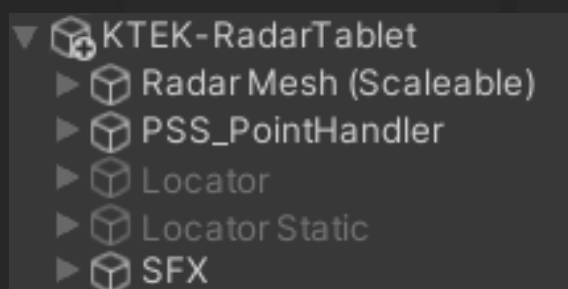

- **KTEK Installer** - <https://github.com/KyrowoVRC/KTEK-Installer>  
download latest version! :D
- Import all .unitypackages and **THEN** the KTEK-RadarTablet .unitypackage.

#####

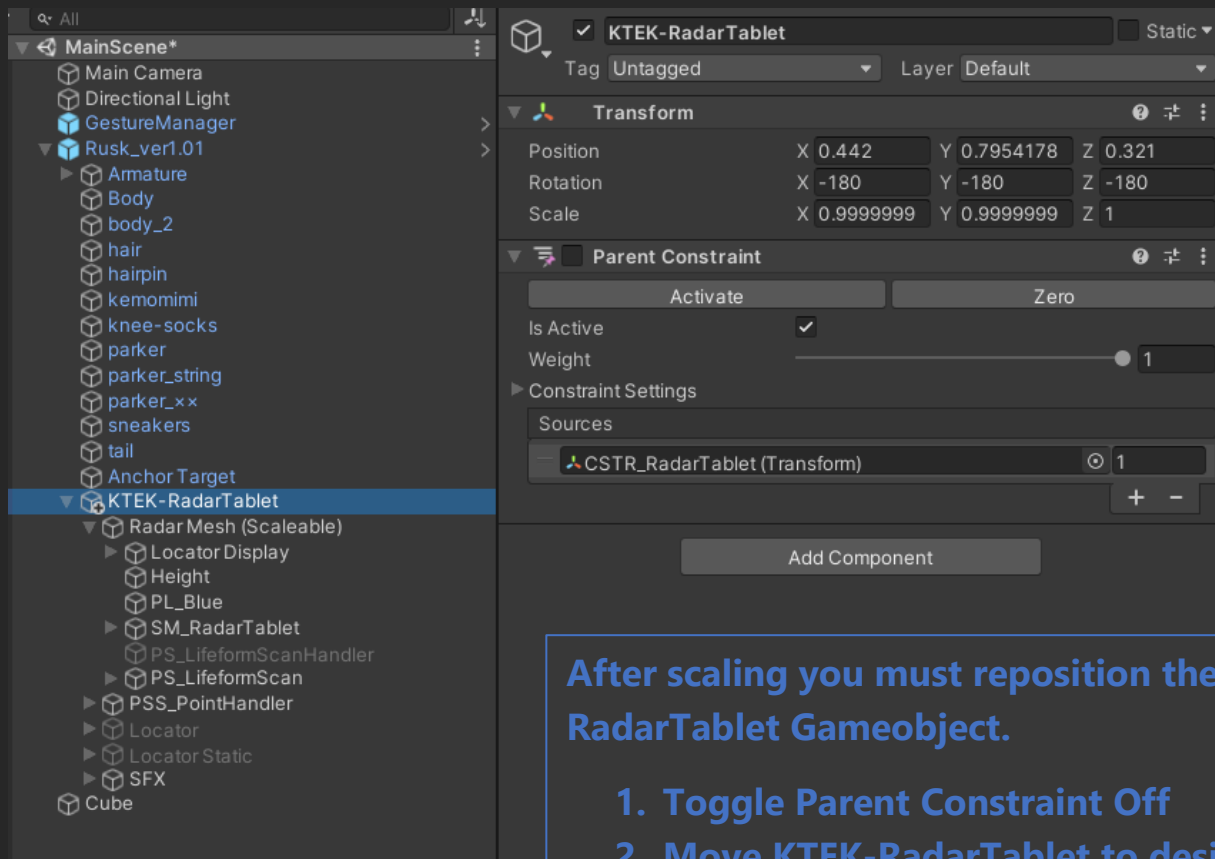

You can debug/test it inside unity with the Gesture Manager (imported through the Creator Companion!).  
I'd suggest you to watch a tutorial on Youtube if you don't know how to use it yet.

#####

Additional Setup tips:

If you wanna scale the Tablet  
please **ONLY** scale the Radar  
Mesh (Scaleable)!

Thanks for Supporting me ❤️

I love creating Stuff~ From Props to Clothing, Particle Effects and more!

I do Avatar and Map commissions too!
